

selfdriven Apps

For Learners & Learning-Partners

The Common Apps ...

The following apps are built, supported and hosted as cloud services by selfdriven.

The apps are currently being tested in pilot programs.
If you would like to be involved in this testing then please contact us.

You

All about identity & wellbeing.
General release Q3 2023.
Free.
[Features](#) ▾
[you.slfdrvn.io](#)

General release Q4 2023.
Free.
[Features](#) ▾
[projects.slfdrvn.io](#)

Next Steps

Learners can share their data with learning-partners for next steps in learning e.g. an application for entry into University.
General release Q4 2023.
Free.
[Features](#) ▾
[nextsteps.slfdrvn.io](#)

Core

The core app with everything included.
General release Q2 2023.
Free for Learning Partners.
Fee per Learner
[Pricing](#) ↗
[Features](#) ▾
[app.slfdrvn.io](#)

Supporter

Community supporters can provide liquidity (funding) and track outcomes in the context of the selfdriven [Growth-Cycle](#).
General release Q4 2023.
Free.
[supporter.slfdrvn.io](#)

You can also build your own apps.

selfdriven Apps are licenced as open-source (CCO Public Domain), so you can modify them or building your own using the selfdriven API.

[Roadmap](#) →

Tech

The App framework is open and extensible.

Anyone can build Apps (Web UI, OS UI, Node.JS etc) using the selfdriven API.

Public digital assets can be accessed on the [Cardano Blockchain](#).
